

VIPP595

# Sculpture Pendant

## PRODUCT DESCRIPTION

The Vipp Sculpture pendant is ideal for providing a cozy illumination of various areas, as it is suitable for many different types of rooms. It can be used over a kitchen, a dining area or even a living room setting. A durable LED unit is hidden under a three-layer frosted opal glass shade, identical to the one used on the Vipp Sculpture table lamp.

### KEY SELLING POINTS

The refined composition of inner white glass layers and outer frosted layers generates the opaque surface and ensures a uniform and cozy distribution of light.

Ancient mouth blowing techniques have been used to shape the lampshade of layered glass.

### PRODUCT CHARACTERISTICS & MAINTENANCE

#### Characteristics

The pendant has a three-layer opal glass shade that creates a fully diffused area with uniform illumination. An opal glass insert disc diffuser gives directional light downwards for the lamp. A fabric covered cord covers the internal wire for safety reasons.

#### Maintenance

Maintenance should be done with a damp cloth while gently holding the lamp in place. Do not use any products containing acid for cleaning.

---

### PRODUCT CERTIFICATIONS

The Sculpture Pendant is constructed and safety-tested according to the IEC standard 60598-1, 60598-2-1.

The CE marking is the manufacturer's declaration that the product meets the requirements of the applicable European directives and ensures

that the product may be legally placed on the European market.

Vipp luminaire products are designed with respect to the Low Voltage Directive (LVD) 2014/35/EU.

---

### AVAILABILITY

The lamp is available for EU and UK markets. US and far markets are currently not available.
