# NEW ORDER SHELVING SYSTEM & TROLLEYS

## HIGHLIGHTS

- Part of a modular and configurable system that includes shelving, tables, and multiple components designed to adapt to various needs and spaces
- Shelving system that offers structural clarity and visual simplicity, functioning as both storage and spatial divider
- New Order can be tall or short, wide or narrow, open or closed – or any combination in between
- New Order's simple grid lets you build airy, open compositions or closed constructions with side panels and folding doors
- Crafted from lightweight yet robust aluminium, ensuring longevity and stability
- Available in various sizes, colours, and finishes to suit both professional and personal environments
- Can be supplemented with drawers, doors, trays, or lockable compartments for increased storage options
- Panels, doors, and back panels can be clicked on and off without the use of tools, allowing for quick updates and adjustments
- Engineered for long-term use and easy modification – supporting sustainable, evolving interiors

# NEW ORDER SHELVING SYSTEM & TROLLEYS DESIGN BY STEFAN DIEZ

Developed in collaboration with HAY, Stefan Diez's New Order is a modular shelving and table system designed to fit the ever-changing boundaries of contemporary workspace and living environments. The simple open-grid construction serves as a flexible and functional framework, enabling the user to create customised open or closed storage solutions with optional drawers, doors and panels.

Stefan Diez is an internationally acclaimed German industrial designer who founded his studio in 2003. He takes a future-facing approach to design, believing it should create durable products for generations to come. Diez is an exacting designer, always rigorous in his quest to fathom the true practicalities of furniture production. For HAY, he has designed Boa Table, the New Order Shelving System and New Order Table.

## SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.

## NEW ORDER CONFIGURATOR

The New Order Configurator enables you to design the ideal New Order system to suit your precise needs. Customise different combinations by selecting colours and materials, as well as adding panels, doors, drawers and shelves to create the perfect solution. Furthermore, the configurator also allows you to save and share your design, export DWG files and find prices and item list for your finished product.
