

Cutlery

Product description

Held in one's hand, the feel of simplicity becomes richness

The style of the Bouroullec brothers first seen in the “Ovale” set of Plates (1) appears again in this set of Cutlery. However, unlike their porcelain the cutlery is symmetrical in design. This produces a more classical look and an ability to adapt to any type of “mise en place”. The sinuous shape of “Ovale” is maintained even in the handle sections, which gives them a decidedly “soft” feel, accentuated by the polished 18/10 stainless steel from which they are made. This pleasant sensation, which fills the hand, continues in contact with the mouth, especially as regards the Spoon (2). The well-balanced “Ovale” set Knife is made with a solid handle (monocoque). The design of the join between handle and blade accentuates the fluidity and sense of continuity of the shape (3). We should remember that a solid handle knife costs much less than a hollow-handled one and some people consider its greater weight to be a positive feature. The linearity of the design and balanced weight of the cutlery makes “Ovale” suitable for a very wide range of uses, for every style of table and for many occasions. The “Ovale” Cutlery set consists of: Table fork, Spoon, and Knife; Dessert fork, Spoon and Knife; Tea, Coffee and Mocha spoons; Fish knife and Fork; Dessert fork, Service fork and Spoon, Salad servers; Sadle; Cake server, and Ice tongs.
