

Copper.

The Copper collection highlights the dynamic and flexible properties of using copper. Pure copper is used as a vacuum metallised film, only microns thick, on the interior of each product, creating an enriched and softened light source.

The Copper Shade brings a sculptural sophistication to any interior, either alone or grouped as a dramatic chandelier cluster whilst the Fat Spot is an alternative to the numerous minimal architectural spotlights on the market. A confident statement piece it provides either a gentle glow or broad directional light.

The prismatic textured Copper Table Light morphs design from the eponymous Fat Spot and Copper Shade with its impressive hemisphere shade and angled base it allows for maximum reflection of light.

The Blow Pendant Light is the first energy saving light in the range specifically designed to accommodate a low-energy compact fluorescent light bulb (CFL). Inspired by the shape of a light bulb, Blow is one of the first outdoor low energy lights, it can also be used indoors and as a pendant or floor light. Allowing the low energy light bulb to give a strong directional light through the clear base, Blow has been designed to bring further awareness to the use of CFL's and to promote sustainability within design.

Copper Series

Plastic polycarbonate lighting series internally coated with copper.

1 Copper Shade

MSS45 - 45cm globe
SPA01EU - Pendant Fitting EU
SPA01UL - Pendant Fitting US
Dimension: Diameter Ø 45cm
Pendant Fitting supplied with: 2.0m cable, ceiling rose & bulb

2 Fat Spot

FSS01 - Fat Spot
FSA01EU - Fat Spot Floor Fitting EU
FSA01US - Fat Spot Floor Fitting US
Dimensions: Ø 30cm decreasing to Ø 17cm, base Ø 20cm
Floor Fitting supplied with: 3.0m cable, rocker switch & bulb

3 Blow Light

COS01 - Blow Light shade
COA01EU - Fitting EU
COA01US - Fitting US
Dimension: Diameter Ø 30cm, H33cm
Pendant Fitting supplied with: 4.0m cable, EU moulded plug & UK converter / US moulded plug.

4 Copper Table Light

COT01 - Copper Table Light shade
COT01EU - Table Fitting EU
COT01UL - Table Fitting US
Dimension: Diameter Ø 45cm, H48cm
Table Fitting supplied with: 3.0m cable, inline switch & bulb
